

CAPABILITY STATEMENT

Stoney Pinch Quarry & Earthmoving own and operate a number of tenements supplying building and construction materials in the Riverland, with the main two being EML 6443 and EML 6490. (Detailed below) We specialise in bulk earthworks, road construction, large scale farm redevelopments as well as several attributed services:

- Hard stand construction, sheds, commercial buildings
- Demolition works
- Large scale tree pushing for redevelopment works 20 – 1000 acres
- Trenching
- Water retaining impermeable Bank construction
- Water retaining dams
- Supply and placement of rip rap and beaching rock
- Subbase preparation for asphalt and concrete
- Grubbing, clearing
- Supply and delivery full range of quarried products

EML 6443 – HARD ROCK PIT, CUTTLE STREET, RENMARK WEST

Materials: Hard Ferruginized iron stone, sand and clay.

The iron stone rock quarried by Stoney Pinch is ideal for river applications as bank stabilisation, rip rap and asset protection as it is non calciferous and will not break down in a submerged environment. This rock is protecting assets from Lock and Weir No.2 - 10 along the Murray River as well as flood plain assets for Department of Water. Stoney Pinch have supplied and placed thousands of tonnes to government and private sectors alike across S.A, N.S.W and Victoria and is the supplier of choice for longevity.

EML 6490 BUGLE HUT PIT, 623 STANITZKI ROAD, PIKE RIVER

Materials: Limestone. Stoney Pinch are a pre-qualified DIT supplier for road base materials.

Bugle Hut Pit can produce upwards of 1,200 ton per day offering both dry and conditioned products ranging from pavement material to quality aggregates. Our road base material specifically PM 2/20Q is used by our clients as far away as Tailem Bend Ouyen and Mildura as it has proven to outlast and perform all others.

CAPABILITY STATEMENT

Stoney Pinch runs a fleet of modern well-maintained truck and trailer combinations ranging from Tandem tipper to road trains typically delivering between 600 – 1000 ton per day depending on distance. We also have ongoing strategic alliances with a number of certified compliant transport operators allowing us to meet customers higher or changing delivery expectations with little or short notice.

PLANT & EQUIPMENT

We carry a full range of earthmoving and quarrying plant including Loaders, Water carts, Graders, Rollers, Excavators, Rock breakers, Floats, Side tippers and Belly dumpers along with multiple truck and trailer combinations.

Stoney Pinch has the capacity to gear up or dry hire any plant outside the above list to for fill our customer requirements.
